**READ THE LABEL CAREFULLY BEFORE USE**

**HSNO Class:** 6.1C, 6.3B, 6.4A, 6.5B, 6.9B, 9.1C, 9.2C, 9.3B

**HEALTH WARNING: Toxic** –Harmful if swallowed.

May cause serious eye damage. Avoid contact with eyes.  
May cause skin irritation. Avoid contact with the skin. May cause sensitisation and irritation to the respiratory tract. Repeated oral exposure may cause kidney damage. Avoid contact with eyes, skin and inhalation.

**ENVIRONMENTAL WARNING:** Harmful to aquatic organisms. May be harmful to soil invertebrates and terrestrial vertebrates. Avoid contamination of any water supply with product or empty container.

**PRODUCT DISPOSAL:** Ensure unwanted product is used by another operator strictly in accordance with label directions. Do not allow product to enter waterways, drains or sewers.

**CONTAINER DISPOSAL:** Triple rinse container and add residue to spray tank. Submit clean empty container for recycling through Agrecovery. If this is not possible burn if permitted and circumstances, especially wind direction allow, otherwise bury in landfill.

**HANDLING PRECAUTIONS:** When mixing or applying wear protective clothing as prescribed for the mixing partners used. Wear gloves and goggles when handling **TRAKKA RHODAMINE B**. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work.

**STORAGE:** Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from feed, seeds and foodstuffs. Storage must be generally in accordance with NZS8409 Management of Agrichemicals. See the HAZNOTE for further information.

**FIRST AID:** If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre **0800 POISON (0800 764 766)** or a doctor immediately. If skin, hair or eye contact occurs, remove contaminated clothing and flush skin, hair and/or eyes with running water for several minutes.

**GENERAL INFORMATION**

**TRAKKA RHODAMINE B** is a red liquid marker dye to assist in clearly identifying sprayed areas. Use of **TRAKKA RHODAMINE B** helps to minimise the problems and losses associated with missed coverage and double overlap spraying.

When used as a colouring agent with **TRAKKA Long Life Marker Foam**, foam will become red in colour making it easier to see.

**RECOMMENDATIONS:**

USE	RATE	COMMENTS
Knapsack Sprayer	5-10 ml/10 litres of spray solution	Use higher rate if more intense colour is required. (Refer to the 'Compatibility Caution' if intended for use with acidic phenoxy or glyphosate products.)
Handgun and Boom spray rigs	50-100 ml/100 Litres of spray solution	
Addition to TRAKKA Long Life Marker Foam	20-30ml/100 litres of diluted foam solution	Converts white foam to pale or deep red (higher rate for deeper colour) for clearer identification on pale surfaces.

**MIXING INSTRUCTIONS**

To achieve thorough mixing, premix **TRAKKA RHODAMINE B** with water at a ratio of 1:10. Add **TRAKKA RHODAMINE B LAST** to a near-full spray tank or knapsack sprayer. Maintain agitation until spraying is complete.

**COMPATIBILITY CAUTION:** **TRAKKA RHODAMINE B** is cationic. Use with some agrichemicals such as some phenoxy herbicides and glyphosate can cause incompatibility that will lead to blocked spray nozzles. For these products use of **TRAKKA RED** is recommended.

**SPRAYER CLEAN UP**

Wash out all spray equipment thoroughly after use as product residues can cause discolouration of subsequent sprays. The use of All Clear<sup>®</sup> is recommended to help eliminate the marker dye and any active chemical remaining in the sprayer system.

**Exclusion of Liability: Please Read**

To the extent permitted by law, buyers and/or users of the goods accept that neither the manufacturer, Elliott Technologies Limited as distributor, nor any other distributor have any liability or responsibility whatsoever for any loss, damage or injury whether in contract or tort, whether direct, indirect or consequential howsoever arising in connection with the supply of these goods.
