Validate®

PENETRANT, SURFACTANT, DRIFT RETARDANT

HSNO Class: 6.1E, 6.3B, 9.1C

HEALTH WARNING: HARMFUL – may be harmful if swallowed, inhaled or absorbed through the skin, may cause skin irritation, avoid skin contact or inhalation.

ENVIRONMENTAL WARNING: Harmful to aquatic life with long lasting effects. Avoid contamination of any water supply with product or empty container.

PRODUCT DISPOSAL: Ensure unwanted product is used by another operator strictly in accordance with label directions. Do not allow product to enter waterways, drains or sewers.

CONTAINER DISPOSAL: Ensure container is completely empty. Burn if permitted and circumstances, especially wind direction allow, otherwise bury in landfill.

HANDLING PRECAUTIONS: When mixing or applying, wear protective clothing, gloves and goggles. Do not eat or drink while using. Wash hands and face, exposed skin before meals and after work. Wash protective clothing after work.

STORAGE: Store in original container tightly closed and in a locked, dry, cool, well ventilated area, away from feed, seeds and foodstuffs. Storage must be generally in accordance with NZS8409 Management of Agrichemicals. See the HAZNOTE for further information.

FIRST AID: If swallowed do NOT induce vomiting. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin, hair or eye contact occurs, remove contaminated clothing and flush skin, hair and/or eyes with running water for several minutes.

PRODUCT INFORMATION

VALIDATE is a non-ionic, low foam surfactant, which lowers the surface tension of water and enhances the activity and penetration of herbicides, plant growth regulators, desiccants, defoliants, foliar nutrients and systemic fungicides and insecticides. Validate® is neutral pH and can be used with sulphonyl urea herbicides and copper fungicides.

VALIDATE also improves deposition and retards drift by producing a more uniform spray pattern. Application may be by ground or air.

VALIDATE is a product derived from soya beans and is exempt from tolerances.

DIRECTIONS FOR USE

VALIDATE may be used on a wide variety of tree fruits, vines, cereals and vegetables. Some pesticides have stated adjuvant use rates. In all cases, follow the pesticide manufacturer's instructions and use the rate specified. Do not add Validate at a rate that exceeds 5% of total spray volume.

RECOMMENDATIONS

General Use:

Fungicides, Insecticides, Plant Growth Regulators, Foliar Nutrients

Use 65 - 250 mls/ 100 litres of spray mixture.

Herbicides, Defoliants, Desiccants

Use 125 - 500 mls/100 litres of spray mixture when used as a surfactant/penetrant

Drift retardant:

Use 250 - 500 mls/100 litres of spray mixture.

NOTE: DO NOT USE VALIDATE WITH PESTICIDES ON GRAPE VINE FOLIAGE.

STORAGE: The product will become thicker at cold temperatures but efficacy will not be affected. If this happens, warm product before use.

EXCLUSION OF LIABILITY: PLEASE READ

To the extent permitted by law, buyers and/or users of the goods accept that neither the manufacturer, Elliott Technologies Limited as distributor, nor any other distributor have any liability or responsibility whatsoever for any loss, damage or injury whether in contract or tort, whether direct, indirect or consequential howsoever arising in connection with the supply of these goods.
